DANGER SIGNALS.

No engineer would be mad enough to run by the flag which signals danger. It is different with the average man or woman. They attempt constantly to run by the danger signals of Nature and that attempt costs thousands of lives every year. When the appetite becomes sluggish, the stomach is troubled and broken, when there is a constant feeling of dullness and languor, Nature is holding the danger signal. The stomach and its allied organs are failing in their work and the body is losing the nutrition on which its strength depends. Such a condition calls for a prompt use of Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition, purifies and enriches the blood and builds up the body with sound, solid flesh.

I have had so much benefit from your medicine, I am glad to say a few words that you may use for publication. I write Mrs. J. R. Downes, Crystal Lake, Conn. I had been troubled with a complication of diseases for over two years, but kidneys and liver bothered me most. Some of my worst ailments were headache, frequent pains around heart and under right shoulder-blade. My hands and feet were cold nearly all the time, and I had such chilliness between shoulders. Some days I could not eat for food; I lost flesh; felt so tired and miserable I seemed I could do no housework. Took medicine from my physician, but received no benefit. Bought a bottle of "Golden Medical Discovery," and after taking it I felt so much better we determined to give it a fair trial. Appetite soon improved and gradually the disorders disappeared until now I am well.

WASHING WITHOUT WATER

Is Like Trying to Get Rid of Dandruff Without Herpicide.

Did you ever see any one trying to wash themselves without soap or water? If you did what would you say of him?

It is every bit as foolish to try to get rid of dandruff and to prevent baldness by feeding the germs which cause it, with Cantharides, Vaseline, Glycerine and similar substances which form the principal ingredients of most so-called Hair Vigors.

Newbro's Herpicide is successful because it attacks and kills the parasitic germ which feeds on the hair roots. It is the original and only genuine scalp germicide manufactured.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

STRONG Again

is what Mrs. Lucy Stovall of Tilton, Ga., said after taking Kodol Dyspepsia Cure. Hundreds of other weak women are being restored to perfect health by this remedy. YOU may be well if you will take it. Indigestion causes nearly all the sickness that women have. It deprives the system of nourishment and the delicate organs peculiar to women suffer—weakness, and become diseased.

Kodol Dyspepsia Cure

enables the stomach and digestive organs to digest and assimilate all of the wholesome food that may be eaten. It nourishes the body, and rebuilds the weak organs, restoring health and strength. Kodol cures indigestion, constipation, dyspepsia, sour risings, belching, heartburn and all stomach disorders.

Digests What You Eat

MUTINY ON BATTLESHIP.

The murder of the officers of the Russian battleship Kniaz Potemkin and the seizure of the vessel by the mutineers has been announced in the Gazette.

A dispatch from Odessa, dated Wednesday night, says: "The whole of the quays and buildings around the harbor, as well as much shipping, are in flames, and mobs of incendiaries prevent the fire brigade working. Troops are kept at bay and are afraid to approach within reach of the Kniaz Potemkin's guns, which threaten a disastrous bombardment. The city is appallingly illuminated by burning buildings, and terror prevails everywhere. Sleep is impossible and everybody is watching and waiting. The whole garrison has been requisitioned for patrol duty. It is thought that it may become necessary to summon foreign warships for the protection of the foreign colonies. Tuesday night's collisions between the mobs and the police and military resulted in the loss of seventeen lives, including three policemen."

A dispatch from Odessa says that the red flag of revolution is hoisted at the mast-head of the Kniaz Potemkin, Russia's most powerful battleship in the Black Sea, which now lies in the harbor in the hands of mutineers. The captured and most of the officers were murdered and thrown overboard in the open sea, and the ship is completely in the possession of the crew, and a few officers who have thrown in their lot with the mutineers.

The guns of the Kniaz Potemkin command the city, and in the streets masses of striking workmen who on Tuesday fled before the volleys of the troops, are now inflamed by the spectacle of open revolt on board an imperial warship, and are making a bold front against the military.

All day long firing was heard in many quarters of the city. A number of barricades have been erected and tumult and disorder reign.

The main squadron of the Black Sea fleet, consisting of the battle-ships Georgei Pobiedonosetz (George the Victorious), Tri Sviatiteli, Rostislav, and Ekaterina II, with two cruisers, were expected to arrive at Odessa last night, and a regular naval battle is in prospect.

The rioters are in a most defiant mood, and are not inclined to surrender without fighting.

Reports of the mutiny, which occurred while the battle-ship was at sea, are difficult to obtain, as the mutineers refuse to allow communication with the shore; but it is ascertained that it arose from the shooting of a sailor who was presenting on behalf of the crew a complaint against bad food. According to one version, this sailor, whose name was Omilchuk, objected to the quality of the "barbecued," or soup, and was immediately shot down by a mess officer. The crew then rose and seized the ship and the officers, eight of whom were spared on condition that they would join the mutineers. The others were killed and their bodies thrown overboard.

After a period of vacillation the Kniaz Potemkin headed for Odessa and arrived there Tuesday night, accompanied by two torpedo boats. Early yesterday the body of Omilchuk was brought ashore in one of the battleship's boats and was landed on the new mole, where it has been exposed in semi-state all day. It was visited by thousands of persons, many of whom placed coins in a basket at the head of the body toward a fund to defray the cost of the funeral, which the sailors propose to hold today and which the strikers will make the occasion of a great demonstration.

An inscription on the breast of the sailor states on behalf of the crew that Omilchuk died for the truth because he presented a just complaint of the crew.

The authorities have made no attempt to remove the body, the sailors having served notice that the ship would open fire on any one seeking to interfere with it. A police agent visiting the spot was killed by strikers.

During the day a red flag was hoisted on the Kniaz Potemkin, and members of the crew rode from ship to ship in the harbor, forcing the stoppage of all work thereon. Food was supplied them by sympathizers on shore, who pillaged the maritime storehouses.

The strike is now general in the city and the rioters are growing in numbers and boldness. There were exchanges of shots all day, but the number of victims cannot be stated. Yesterday evening a bomb was thrown in Cathedral Palace, killing its thrower and a policeman.

During the day one of the torpedo boats which accompanied the Kniaz Potemkin came into the harbor and seized the Russian steamer Esperanza. The steamer was laden with 2,000 tons of coal, which the battle-ship is taking on board.

The governor has telegraphed for a squadron to be sent from Sebastopol.

A dispatch from St. Petersburg says: "More serious in its possible effects than all the defeats in Manchuria or the destruction of Rojstvensky's fleet was the news which reached St. Petersburg Tuesday evening that the standard of open rebellion was floating on board one of the Emperor's battle-ships in the harbor of Odessa, and that with shotguns the mutinous crew headed by eight officers was holding the ship against all comers."

The authorities are in almost a state of panic, and at the admiralty consternation reigns. Admiral Wierens, chief of the general staff of the navy, said that the admiralty had received advices regarding the mutiny, but that he was unable to give details. He frankly con-

ANOTHER WEEK OF Great Selling.

The Kniaz Potemkin is a more powerful ship than any in Kruger's squadron, and the gravity of the situation is increased by the fact that the city is practically in possession of the strikers, who, according to the dispatches, had already been encouraged to open resistance by the mutiny of the sailors, and were erecting barricades and fighting the police and the troops in the streets.

Should the sailors of Kruger's ships join the mutineers, the government would have to face open revolution, which would spread like wildfire to other towns in the Black Sea littoral. The workmen of all these towns, from which sailors are largely recruited, are imbued with the socialist and revolutionary propaganda. At Sebastopol less than a month ago disorders were suppressed with difficulty.

I tried many remedies, without relief, until I took Dr. King's New Discovery for Consumption Coughs and Colds, which entirely cured my cough, and saved me from consumption."
